

Table 7-10. Expenditures for needed capital projects to construct or repair/renovate science and engineering research facilities, as identified in an institutional plan, at predominantly undergraduate institutions¹ by institution type and field: 1994
[Current dollars in millions]

Field	Nondoctorate HBCUs	Comprehensive universities	Liberal arts colleges
Total	80.8	204.7	151.9
Engineering	20.9	11.3	0
Physical sciences	20.4	84.4	62
Environmental sciences	0	9.4	12
Mathematics	2.3	12.3	3
Computer sciences	3.5	0.8	2.5
Agricultural sciences	0.7	0	0
Biological sciences	16.8	72.4	27.7
In universities and colleges	16.8	72.4	27.7
In medical schools	0	0	0
Medical sciences	8	2.7	0
In universities and colleges	8	2.7	0
In medical schools	0	0	0
Psychology	0.2	4.3	38.3
Social sciences	8.1	6.8	0.8
Other, not elsewhere classified	0.2	0.1	5.6

¹ The Carnegie Classification of Institutions of Higher Education is used to distinguish between two different groups of predominantly undergraduate institutions: comprehensive universities, those that offer a liberal arts program along with other programs such as engineering, business administration, or nursing; and liberal arts colleges, those award bachelor's degrees and that grant more than half of their degrees in the liberal arts.

NOTES: In order to obtain an estimate of needed funding, institutions were asked to report whether an approved institutional plan existed that included "any deferred repair/renovation or new construction." Four criteria were used to define deferred space: (1) the space must be necessary to meet the critical needs of all programs; (2) construction must not be scheduled to begin during fiscal years 1994-1995; (3) construction must not currently have funding; and (4) the space must include developing new programs or expanding the number of faculty.

Dollar amounts are reported in current dollars, unaadjusted for inflation. See table A-5 in the Technical Notes for the inflation adjustment used in Volume I of this report.

KEY: "HBCUs" = Historically Black Colleges and Universities
